

REMARKS

This amendment is made to add new claims 16-18, a slightly broader version of patent claim 5. Support for this broadened version of claim 5 is found in the original claims of the patent application and in claim 5, and also in the description, particularly Fig. 15 and the description of Fig. 15 of the patent.

All of new claims 16-18 recite that the key head has a battery and that when authorized, power is sent from the battery into the lock to allow opening of the lock.

Favorable action is solicited.

Respectfully submitted,

Thomas M. Freiburger
